September 19, 2013

Dear Parents and Guardians,

This school year brings many exciting changes to your child's learning in the Campbellsport School District. Changes to the way districts are evaluated by the Wisconsin Department of Public Instruction (DPI) have also occurred. DPI issues report cards for each school and for the district as a whole. To view the report cards, go to <https://apps2.dpi.wi.gov/reportcards/>. The report card shows how our schools and district are performing and where they can improve. The 2012-13 scores for each school and the district follow.

<p>Campbellsport Elementary School's 2012-13 overall score is 71.5 and Meets Expectations. Eden Elementary School's 2012-13 overall score is 66.6 and Meets Expectations. Campbellsport Middle School's 2012-13 overall score is 70.0 and Meets Expectations. Campbellsport High School's 2012-13 overall score is 76.5 and Exceeds Expectations. Campbellsport School District's 2012-13 overall score is 70.0 and Meets Expectations.</p>

An overall accountability score from 0 to 100 is earned by each public school and the district. This score is displayed in the top left corner of the School or District Report Cards in the state of Wisconsin silhouette. The accountability score that is between 0 and 100 is not a "percent correct" measurement. The score is based on the 2012-13 performance in four priority areas:

- **Student Achievement** proficiency in reading and mathematics on state assessments
- **Student Growth** measured by year-to-year improvements in achievement
- **Closing Gaps** in performance between specific student groups (comparing English language learners, low-income students, students with disabilities, and members of a racial or ethnic group with their peers)
- **On-Track and Postsecondary Readiness** is a measurement using reliable predictors of high school graduation and potential post high school success

Schools and districts are evaluated on their test participation rates, chronic absenteeism rates, and dropout rates when applicable. The School and District Report Cards will be issued every year. Individual student results on state assessments will continue to be reported separately. DPI has produced a two-page "School Report Card" and a lengthier "School Report Card Detail," with extensive information about the data used. They can be accessed online at http://acct.dpi.wi.gov/acct_accountability. The State Superintendent, Governor, legislative leaders, and DPI staff worked closely with parents, educators, and members of the business community to develop the system.

We look forward to working with you to make 2013-14 a successful school year for your child!

Sincerely,

Judith T. Hoepfner, Ph. D.
Director of Curriculum & Instruction
